

WIM 9900 vs. WIM Compas™ F

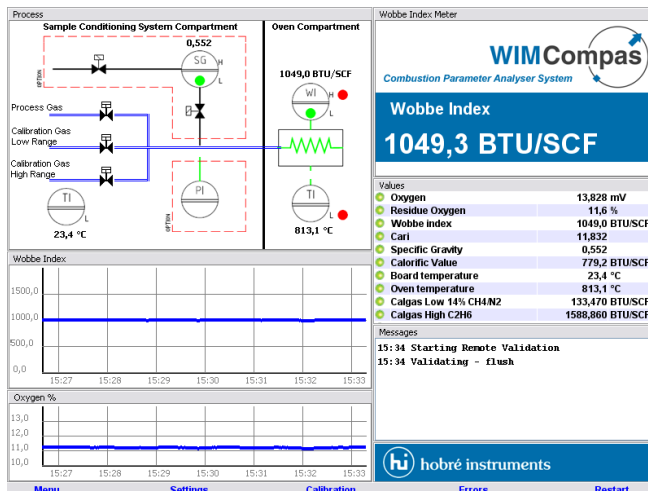

▲ Figure 2: WIM 9900 Display

◀ Figure 1: WIM 9900

Advantages of the WIM Compas™ F over the WIM 9900:

1. Possibility to operate the analyser without breaking the purge.
2. Data logging possibilities.
3. Remote diagnostics and operation using TCP/IP protocol.
4. Advanced trouble shooting due to improved electronics.
5. Reduced internal volume to optimize response time even further.
6. Dual certification CSA and ATEX.
7. State of the art electronic design and communication.
8. Improved maintainability due to different line up of oven compartment.
9. Experiences gained over the past 20 years are implemented in this redesign.
10. More than a dozen WIM Compas™ analysers on order starting the 1st of January 2010.
